

CHARGING INSTRUCTIONS

⚠ WARNING!

Please plug wall charger directly into a wall outlet. Do not use an extension cord.

When battery power is low, please charge it immediately. The charging port is under the seat. (Note: toys can not be operated in the charging state. Toys should be charged by adult).

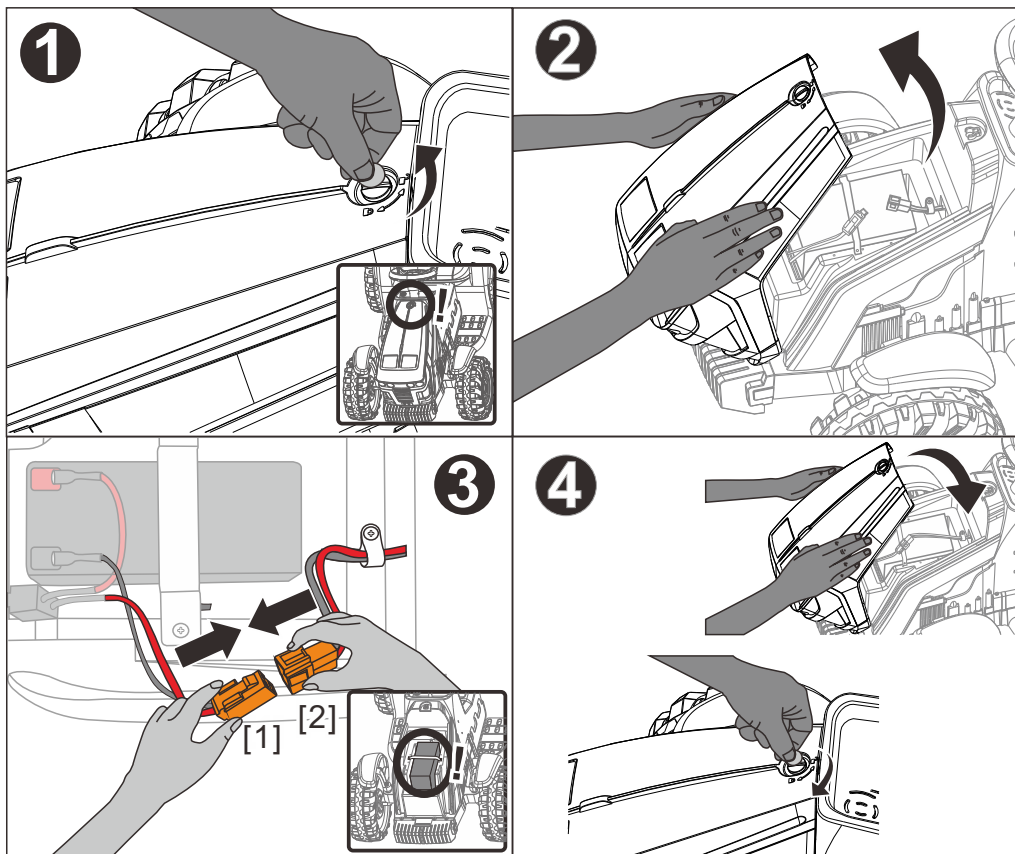

Install the trailer:

Keep the arrow in the same direction, L to the L, R to the R.

***Install the trailer in correct direction follow as figure 1.**

CONNECT THE POWER

Use coin or screwdriver to loosen the knob on the hood in counterclockwise direction, then open the hood, connect [1] power port to the [2] motor terminal to power the car, Put back the hood and use coin or screwdriver to tighten it in clockwise direction.

BATTERY WARNINGS

1. In the first time to use the electric car, must ensure that the battery has charged for 12 hours, otherwise will permanently damage the battery.
2. Before charging, connect the charger with the charging port firstly. Then plug the charger into the power socket.
3. For every hour of use, it must be timely charged. The normal charging time is 8-12 hours, and the charging time shall not exceed 20 hours.
4. When the electric car is unused for a long time, it must be charged at least once a month.
5. The charger and battery are not toys. Children are not allowed to play with them.
